

CDPH COVID-19 Testing Updates

Stefanie Medlin, MPH

Medical Countermeasures Unit

Center for Infectious Disease

California Department of Public Health
(CDPH)

CDPH At-Home Testing Program Update

- CDPH is continuing to provide COVID-19 tests to support populations who are high risk for severe disease through **June 30, 2024***.
- Skilled Nursing Facilities, Elder Care Facilities, Long-Term Care Facilities, Programs serving those >65 years, and Community Based Organizations that serve the elderly can request at-home tests until June 30, 2024, or when testing resources are exhausted. *
- The FDA extended expiration date on many of these tests will vary, with some tests being shipped out expiring between November 2024 and March 2025.
- Orders should reflect a 2-3 month need of tests.

Order OTC tests here: <https://labsupport.powerappsportals.us/ordercovidotc/>

**At-home tests will likely be available for the 2024-2025 respiratory viral season pending the continued availability of tests from the federal government. More information will be forthcoming. We will provide an update closer to the end of the month.*

Professional CLIA-Waived Test Availability

- Professional CLIA-waived tests:
 - Professional tests to facilities with their own CLIA-waiver and state facility license through **June 30, 2024.**
 - BinaxNOW CLIA-waived tests have extended expiration dates through July 2024.
 - We have depleted our inventory of COVID/Flu A&B multiplex tests. Should these tests become available again, we will notify this group of their availability.

Order professional CLIA-waived tests

Your at-home tests are likely not expired!

- Most printed expiration dates are not correct and have been extended.
- Orasure by IntelliSwab brand was recently extended by the FDA; many of these tests have been extended to early 2025!
- Check to see the correct expiration date on the [FDA website](#)
- Replace tests that are older than the **extended** expiration dates.
- If newer tests are not easily available, you may use an expired test as long as the internal control line remains valid.
- CDPH cannot accept the return of expired at-home tests. Please access the [Test Disposal/Site Clean-up Instructions](#) for additional information on how to dispose of expired testing supplies.

Thank you
