

Clean Hands—Safe Injections Initiative

Improving Hand Hygiene and Safe Injection Practices Agenda
Health Services Advisory Group (HSAG), Conference Room
700 N. Brand Blvd., Suite 370 • Glendale, CA 91206
June 3, 2016 • 1–4 p.m.

Learning Objectives

- Review the available tools and models that enable best practices in hand hygiene and safe injection practices based on interventions from the World Health Organization and the Centers for Disease Control and Prevention to eliminate healthcare-associated infections (HAIs).
- Recognize the clinical impact of preventable HAIs.
- Examine the business case of HAIs for ambulatory surgical centers (ASCs), including future Centers for Medicare & Medicaid Services (CMS) payment penalties.
