

Customized Data for Quality Improvement

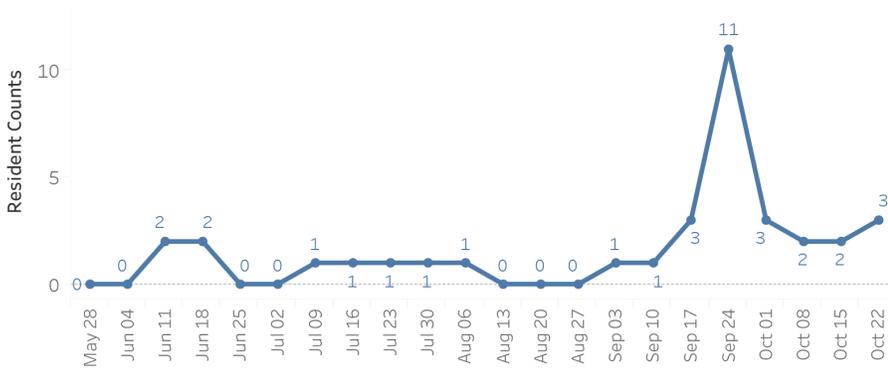

The HSAG Quality Improvement Innovation Portal (QIIP) is a data application for nursing homes participating in initiatives and activities with HSAG to achieve the Centers for Medicare and Medicaid Services (CMS) quality improvement areas of focus. The QIIP provides facility-specific readmission data that is updated monthly, and COVID-19 vaccine run charts that are updated weekly. Use the data as a benchmark for performance and to track your progress.

In the QIIP, your facility will be able to:

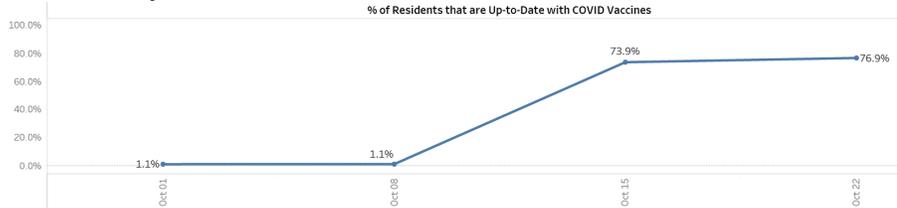

- Access and download performance reports and dashboards.
- Identify trends and target improvement efforts.
- Complete assessment forms to identify performance gaps.
- Gain insight to address health equity and disparities.

Reports Include:

Resident COVID-19 Cases

Resident Up-to-Date COVID-19 Vaccine Rate

CMS National Goals

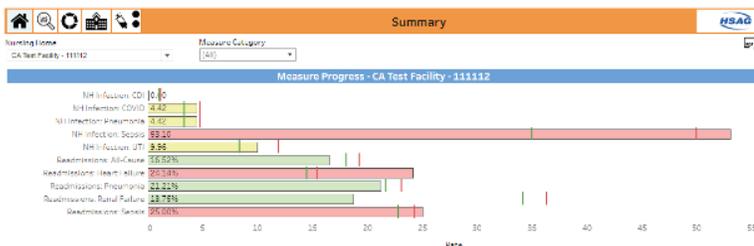

- Infection Prevention
- Readmissions and Care Transitions
- Opioid Utilization and Misuse
- Immunizations
- Adverse Drug Events
- Emergency Preparedness
- Quality and Safety
- Patient/Family Engagement
- Health Equity

Let's Get Started

Complete the QIIP Administrator form to get access to your facility's data at:
