Health Services Advisory Group (HSAG) End Stage Renal Disease (ESRD) Network 7, The Florida ESRD Network

2019/2020 Transplant Referral Guide

A kidney transplant is a possible treatment option for people on dialysis. However, not everyone who wants a transplant can be considered eligible to receive one. Only transplant center professionals can determine if a patient is a good candidate for a transplant.

Each transplant center uses its own set of standards for deciding if a patient is a good candidate for a kidney transplant. In some cases, a patient can be turned down by one transplant center but found to be eligible at another transplant center.

The table on the following pages is a tool to help guide dialysis patients, their family members and care partners to the transplant centers that could most likely meet their needs*.

*Criteria at each Transplant Center is subject to change.
This tool should be used for general guidance.

For specific information, please call the Transplant Center Directly.

Absolute Exclusion Criteria	Cleveland Clinic	Florida Hospital	UF Health Halifax	Jackson Memorial	Largo Medical Center	Mayo Clinic	Memorial Health	Sacred Heart	UF Health Shands	Tampa General
Active or Untreatable Infection	X	X	X	X	X Sepsis	X	*Contact transplant center directly	X	X	X
